

Artem Shchirov

Full Stack Developer

I am a Full Stack Developer oriented on creating user-centered web apps based on modern dev methodologies and products that serve users' needs in creative and efficient ways. My aim as a developer during coding is to keep my codes sleek and always human-understandable. My daily task is to be equipped with the right knowledge and tools to enable me achieve these as I code.

ACHIEVEMENTS

"DevRel" Hackathon App (12/2022)

Implemented frontend & backend-for-frontend in 4 days at dev hackathon. Built multi-page website with tools to find and scan data on GitHub users and repos using React.js, TypeScript, Tailwind CSS and REST API. Our team placed 5th out of 32.

"HackWagon" Hackathon App (11/2022)

Implemented frontend in 3 days at dev hackathon. Wrote a web page with 16 forms that send the collected data to the backend for computing the shortest path of train movement using React.js, TypeScript and REST API. Our team placed 18 out of 48.

Senior Student at Practicum Israel (11/2021 - 09/2022)

My primary volunteer responsibility is to answer students' questions to enhance their understanding of the material. I also review code, provide feedback, and participate in webinars.

"Lubimovka" Website (11/2021 - 01/2022)

In Practicum, we developed a section of the JavaScript website for the Lubimovka Young Playwrights festival as volunteers. Our team was made up of 4 people and we utilized Slack for communication and Git and GitHub for collaboration.
