Full Stack Developer
Practicum Israel

07/2020 - 04/2021

Courses

- Advanced HTML & CSS
- Advanced JavaScript
- React.js & Interfaces
- Backend & Express.js

Practical Programming
Moscow Institute of Physics & Technology

08/2018 - 05/2019

Courses

- Python
- Linux
- Web Development
- Algorithms

SKILLS

HTML CSS SCSS Tailwind CSS JQuery
JavaScript TypeScript React.js Vue.js
Node.js Express.js NestJS Redux MobX
REST API GraphQL Testing Postman
PostgreSQL MongoDB Firebase Figma
Python Linux Docker Nginx CI/CD

ACHIEVEMENTS

"DevRel" Hackathon App (12/2022) ⧉
Implemented frontend & backend-for-frontend in 4 days at dev hackathon. Built multi-page website with tools to find and scan data on GitHub users and repos. Our team placed 6th out of 32.

"HackWagon" Hackathon App (11/2022) ⧉
Implemented frontend in 3 days at dev hackathon. Wrote a web page with 16 forms that send the collected data to the backend using React.js, TypeScript and REST API. Our team placed 8 out of 48.

Online Electronic Store (11/2022 - 01/2023)
Multi-page app was built using React.js, TypeScript, SCSS modules, Node.js, NestJS, PostgreSQL, and Docker. Plans have been made to deploy on AWS with Nginx and tested using Jest and automated Postman tests with CI/CD implemented.

CERTIFICATES

Full Stack Web Development with React (04/2021)
The Practicum Israel course covers a front-end and back-end development, server-side rendering, API integration, deploy and more.

JavaScript Algorithms and Data Structures (08/2020)
The FreeCodeCamp course explains the basics of JavaScript and shows how to create algorithms to manipulate strings and factorize numbers.

The Python Developer Certificate (05/2020)
The MIPT program covers various aspects of Python programming, including data structures, algorithms, web development, and more.
